

We had a Veterans Memorial Wall Committee meeting yesterday. Brian DeBest gave us the total for constructing the wall, engineering not included.

Total of \$326,120.56. We will have the total cost for the engineering next week.

As you all know we Veterans, SAL, Legion Aux, our Family, Friends, and Neighbors funded the complete project that included improvements to the city property to the west of us at no cost to the city and no funding from any Government Entity or Foundation.

We can use the help in paying off the loan so we can continue all the other activities we support.

Thanks to all the great people that have stepped up to the plate this far. I cannot count the number of people that have said they came to South Haven to see the wall and say that it is a beautiful wall for Our Post and all of the South Haven Area.
